Water Pollution Control Cost Breakdown

INSTRUCTIONS

- The following Water Pollution Control Cost Breakdown shall be used as the basis for estimating the lump sum item for "Water Pollution Control." Modify the table as follows:
- Caution: Do not use "Strike and Hide" to eliminate rows; delete rows. Do not "underline" text in the table.
- If a Temporary Water Pollution Control Practice is included as a separate bid item, such as Temporary Silt Fence, delete that Item from the table as it is not to be duplicated in the cost break down.
- For all Items in the table, delete those that are not applicable for water pollution control for the specific project as per the Construction Site BMPs Manual. The contractor will select from among the remaining Items per the "Construction Site BMPs Consideration Checklist" in the Preparation Manual and designate an estimated quantity, value, and amount for each Item selected on the cost break down submitted with the SWPPP.
